

Dear Valued Partner:

St. John Providence Health System and the Anthony L. Soave Family are pleased to announce a new service that brings state-of-the-art mammography and health screenings directly to your community.

Our “Anthony L. Soave Family Mobile Mammography & Health Screening Center” is a self-contained screening center on wheels featuring advanced 3D\Tomosynthesis imaging in a clean and comfortable environment. Our commitment is to provide high-quality mammograms to as many women as possible to help reduce the risk of breast cancer. Early detection is critical to survival.

As an organizational partner of St. John Providence, we are offering this service at no out-of-pocket expense to your organization or program participants in support of continuing health and wellness. Scheduling the St. John Providence mobile mammography program is a great way to let your community know you are committed to their long term well-being.

**Partnership Advantages**

- Delivers a great health benefit at no additional expense to your community or program participants
- Eliminate the use of sick-time or vacation-time used for doctor appointments

**Participant Advantages**

- Mammograms in 15 minutes
- Total patient privacy (1-private exam room, 2-private dressing rooms & 2-female technicians)
- All images are read by board certified radiologists
- Insurance billed directly (accepts most insurance)
- Financial assistance available for uninsured and underinsured participants who qualify
- Results are sent directly from St. John Providence Accredited Breast Center to the patient and their Primary Care Physician
- Breast Care Navigator will contact any patient with abnormal findings to explain their results and assist with any additional required follow-up

**To Participate, You Only Need To:**

- Work with us to designate a screening date for your organization
- A minimum of 12 women must be pre-registered
- Assign a parking location for our Mobile Coach to park (2 rows of 7 parking spaces back-to-back)
